

Learning Can't Wait Until Next Year!

Need Wireless Today? Can't Wait for E-Rate Funding? Lost E-Rate Funding?

Back-to-School promotion through August 31, 2012

With local, state, and federal budget cuts looming for the upcoming school year, Enterasys Networks is excited to offer a leasing program to our education customers. The leasing program, offered through GE Government Finance, allows your district to provide infrastructure for 21st Century learning opportunities – TODAY! Is your district's infrastructure ready to meet the demands of 1:1 and BYOD programs? You need a network built for today; we have the tools to help you succeed!

Benefits of an Enterasys Leasing program:

No hidden costs

When analyzing your financing options, you must account for all costs (e.g. underwriter expense, disclosure and printing, rating agency fees). GE's tax-exempt financing typically eliminates such fees.

Non-appropriation financing

Our financing documents contain non-appropriation language. Your payments are typically a current year expense rather than debt.

Flexible payment options

The Enterasys program allows for great flexibility. Depending upon the type of equipment being financed, you could choose payment options that are monthly, quarterly, semi-annual, annual or even delayed payments. Easy future add-ons and early prepayment also are available.

Prompt completion versus bond issue

The program's tax-exempt financing typically is completed in a few weeks, compared to publicly offered bonds that can take months to complete.

Tax-exempt lease purchase option for educational institutions

- 0% due to tax-exempt status
- Ownership of products at end-of-term for \$1 buy out at end of lease
- Master lease options for easy add-ons
- 3, 4, 5-Year Terms
